QUALITY, ENVIRONMENT AND SAFETY INTEGRATED POLICY OF THE BONOMI GROUP

The Bonomi Group plans to implement the following in order to enable the proactive sharing of objectives and lead the organisation towards the ongoing improvement of company processes:

- Achieve customer satisfaction by creating products that increasingly comply with the characteristics requested.
- Achieve investor satisfaction with the effective management of company processes, cost control, and an increase in company profits.
- Involve suppliers in the company consolidation process in order to make the partnership mutually beneficial.
- Integrate, develop and share knowledge between the Group's production sites.
- Centralise the Group's key processes, more specifically Technical, Commercial, Purchasing, Quality.
- Comply with applicable legislation relating to safety and the environment.
- Realise safe work conditions;
- Eliminate risks and threats;
- Involve the employees and their representatives in the management of the activities related to the occupational health and safety.
- Prevent pollution and accidents.

The Group is permanently committed to ongoing improvement and complying with national legislation and general regulations that apply to the Group's business.

Group CEO
Mr. Domenico Bonomi
